

The Baloch family rarely comes outside of their homes because of rigid traditions and cultural values. Thus, it is very impressive Social Mobilization of UCBPRP that a disabled woman took a bold step to achieve a vocational skills training to eradicate the concept of disability. Even during daily outback from the Training Centre she faced lot of difficulties but she never lost confidence. Consequently, Ms Ubaida W/O Ghulam Nabi Golo achieved her milestone and proved for other disabled women that “everything is possible with determination” she became an example in the

Society. Currently she earns more than PKR 200/= daily which is a good amount for her as well as for family . Now she has started to materialize her dreams of educating her children, and again she was committed.
